Highpoint

This outstanding two / three-bedroom apartment is situated on the fifth floor of Highpoint I, arguably the finest example of residential Modernist architecture in London.

Designed by Berthold Lubetkin in the 1930s, Highpoint has been listed at Grade I by English Heritage in recognition of its extraordinary architectural rarity and quality.

This particular apartment is situated in the middle of the building, with exceptional views from both sides. Accommodation measures more than 900 sq ft. There is a large reception room with original Crittall windows that fold all the way back to reveal southerly views towards the City, and a separate galley kitchen that was refurbished by the current owners. The two double bedrooms have long views over trees to the north, with a modern bathroom between the two. There is also a study / third bedroom to one side of the entrance hall, and a utility room to the other.
