Greatwood III

Designed by the acclaimed architect Norman Starrett in 1966, this large townhouse is located on Greatwood, a quiet cul-de-sac in Chislehurst. Arranged over three storeys, the four-bedroom house offers generously proportioned, light-filled accommodation, most notably in the open-plan living, kitchen and dining areas which occupy the entire first floor.

Greatwood is a small development of 19 houses, all designed by Starrett in a style he called the 'H2 Design'. The houses are arranged in small groups of staggered terraces to give maximum privacy. Located in a quiet setting away from the main road, Greatwood retains a private and tranquil atmosphere.

This particular house is positioned at the end of the terrace. Many original features have been preserved, including exposed brickwork at ground level, douglas fir ceiling cladding and beautiful narrow floorboards on the first floor. The house has a garden which is landscaped into three terraces, as well as a garage and parking space for one car. There are additional visitor parking spaces in the estate.

About

The Modern House is an estate agency that helps people live in more thoughtful and beautiful ways. We believe in design as a powerful force for good. Inspired by the principles of modernism, we represent design-led homes across the UK which celebrate light, space and a truth to materials. Esquire credits The Modern House with “rewriting the rulebook on estate agency” and GQ voted us “one of the best things in the world”.
